Stage 1: Discovery and Onboarding

We begin by aligning with your team to understand your business goals, target audience, and key pain points.

We gather necessary access to your codebase, design files, analytics, and infrastructure to fully review the current environment.

Stage 2: Current State Evaluation (As-Is Analysis)

We analyze how the platform is built right now, evaluating code quality, architecture, security, and performance.

We conduct a UX/UI walkthrough to identify usability bottlenecks, accessibility issues, and design inconsistencies in the current version.

Stage 3: Gap Analysis and Strategy

We compare your existing platform against industry best practices and your initial business objectives.

We pinpoint exact areas that need improvement, ranging from critical backend fixes to frontend user experience enhancements.

Stage 4: Solutions and Deliverables Creation

Visual Mockups (To-Be State): We design high-fidelity mockups showing how the platform should look and function to achieve optimal performance and user experience.

Developer Brief: We compile a comprehensive technical and actionable brief for your developers so they can precisely execute the suggested recommendations.
