AI RECEPTIONIST

A 7/24 Estimator & Client Support Assistant Without the Overhead.
Your clients don't only look for contracting and renovation services during business hours and neither does your AI Receptionist.

Whether it's a late-night inquiry about a kitchen remodel, an urgent pricing request for a commercial build, or a subcontractor asking about project timelines, every message is answered instantly, professionally, and with a personalized touch as if your project managers are always available.

Our AI Receptionist manages incoming communication across WhatsApp, email, Instagram, website chat, and other platforms in real time.

It answers questions about your construction services, structural capabilities, materials used, customization options, booking site consultations, rough quotations, permit status, availability, project timelines, and anything else your clients or leads may need instantly and consistently.

Gone are the days of losing profitable contracts because bids or replies came too late or site inquiries slipped through the cracks. No more overwhelming back-and-forth communication or spending hours answering the same questions about your licensing, availability, or estimation process repeatedly.

PS: Before any commitment, we'll build you a personalized live demo tailored to your contracting and construction business so you can experience exactly how the AI receptionist would qualify leads and handle inquiries before moving forward.

AI CHATBOT / LEAD CAPTURE

Turn Every Visitor Into a Potential Guest.

Most people who discover your property online will leave without ever reaching out not because they weren't interested, but because no one was there to engage them at the right moment.

Our AI Chatbot changes that completely. Embedded directly into your website or social media pages, your AI Chatbot greets every visitor, answers their questions, and gently guides them toward making a booking all in a natural, conversational way.

It collects their details, understands their travel dates and preferences, and captures them as a lead before they disappear.

Whether someone's comparing properties at midnight or asking about pet policies on a Sunday afternoon, your chatbot is right there warm, helpful, and ready to convert curiosity into confirmed bookings.

PS: Before any commitment, we'll build you a live demo personalised to your business so you can see exactly what's possible before we take a single step forward.
