LOGO BRANDING

Brand Strategy & Visual Identity (Rebranding)

To build a scalable foundation, we will execute a complete brand refresh designed to support both your current launch and long-term expansion .

Color System Integration: We will refine and standardize your existing color palette, establishing primary shades and secondary accent variations to define each future category while maintaining unified brand recognition.

We will design a core master logo alongside a flexible badge/icon system. This architecture ensures that as you branch into specialized lines, each new venture inherits a distinct yet recognizable derivative logo born directly from the parent design.

Brand Style Guide: A clear set of visual rules covering typography, iconography, color usage, and usage guidelines to ensure consistent presentation across print, digital, etc...

developing a strong logo and establishing a clear creative direction across the entire design system will significantly enhance the brand’s credibility and positioning. It will create a more cohesive and professional identity, helping the brand stand out and leave a strong, lasting impression on its audience.

Our team will run highly targeted ads using the new website format and pixelation system to gather the right data for Facebook ad manager.

This approach allows us to optimize the performance of our ads and maximize your ROI. We will be using Facebook's promotion feature to gather data for future campaigns. This data will help us understand our audience better and create more effective ads in the long run.

We work closely with you to determine the best budget for your goals and objectives. Call to action / lead generation (according to marketing strategy) Our team will constantly monitor and optimize your ads to ensure the best results.

We would prefer to start with a fixed fee structure for our agency services related to advertising. As we achieve positive results and help the business grow, we would be open to discussing the possibility of transitioning to a performance-based model, working on a percentage basis without the fixed fees.

This approach has been successful with many of our clients and allows for a mutually beneficial partnership as the business scales.
